REPUBLICANS POWER MAD

When we hear of s man or set of men being power mad, we cannot but think of the Kaiser of yeaterday, or the kings and lords of olden times. Time tella a wonderful atery.

The victory of the Republican party last November, has meant fittle or nothing to the Colored people of the pation. In fact, it has not served 10 build and releastablish the principles of the party of the party of the colored people of the pation. In fact, it has not served 10 build and releastablish the principles of the party of the pation of the party of the colored people of the pation as the head of the releast to the property have described these, principles and have failed down at the feet of what is known in the Lily Whiteism of the South.

The statement attributed to President Harding as saying that his mind wars' ally mad, up as to the policy he intended to pursuit with reference to the Colored people of the South, looks to us shice-thing the Cohord mann'to 'get Out'' or if he does stay, the read will be "booky." The President has took the Negroes if they releast the behind the rebels of the South. Or fit lives that the pation of the North Assented as expressed in his statement to be presentatives of the N. A. A. C. P. is like pation of millstone about one's neck and commanding him to swin.

The Washington correstandent of the Assentiat Negroes and the New Ashington correstandent of the Assentiate Negroes.

as expressed in his statement to representatives of the N. A. A. C. P. is like patting a millistine about one's neck and commanding him to see the patting of millistine about one's neck and commanding him to see the patting of millistine about one's neck and commanding him to see the patting of millistine about one's neck action of the party haders toward the Race, and suggest that this protest be in the form of accepting the 'get out' mail offered by President Hardine, and edurant to their homes as Bob Church of Memphis, frem, has done.

We hearthly sirre with the correspondent. It is time for action on the part of our leaders. They cannot but see the reward that has come to use to the pattine of the party are riding on their first the surface of the Republican party are riding on their high torse had hare so soon forgotten the principles and the platfurnt upon which they were usheyed into power, and have so soon become power-lead high they exceed the platfurnt upon which they were usheyed into power, and have so soon become power-lead by exceeding the principles and the party exceeding the principles and the platfurnt upon which they were usheyed into power, and have so soon become power-lead by exceeding the principles and the party exceeding the principles and the platfurnt upon which they were usheyed into power, and have so soon become power-lead by exceeding the principles and the party exceeding the principles and the platfurnt upon which they were usheyed into power, and have so soon become power-lead principles and the principles and the party exceeding the principles and the platfurnt upon which they were usheyed into power, and harve so soon become power-lead principles and the prin

position. We can only advise, let them ride. Let them on with the dauge. There is a pleasure sometimes in standing on the conters and seeing the grand promenale pass.

YOU HAVE TO HURRY, MAYOR KIEL,

We are thinking at a speech made by Mayor Kiel, Feb. 22 at

Poro Auditorium, turing which he said, if he was elected mayor

he would see to it that the Tandy Park would be finished ere the

frost fell.

he would see to it that the Tandy Park would be finished ere the frost fell.

Passing that corner a few days ago, and seeing the mayor's promise concerning he park was yet unfuffilled, we would suggest that you will have to hurry Mr. Mayors'ff you intend earrying call your promise.

It will be issuemiested that Tandy Park is located at Pendleton, Goode, Cottage and Kennerly. It is a Negro neighborhood and the presupption is, that the Negroes would be the principal beneficiaries of the park.

During his speck, the mayor deplored the fact, that the war had stopped the work on the park, and expressed his regrets that the children had to pay in the mud, while children of other communities had beneficially and should be a subject to the principal playerounds, and he said, "I assure you that if I am elected riky," it will be my purpose to beautify Tandy Park with greass and shrubbery before the frost fall of the work on the promise. We supported the Mayor on his permise. We supported the Mayor on his permise.

A COMMAND

We command all men and women-true, loyal, liberty-loying Americans to urge the passage of the Dyer's Anti-Lynching bill, which is now before the Congress of the United States. If you Think it is a Drency bill, then do something to help put it over.

A CHALLENGE
If the Ku-Kinx-K'an is one-hundred per cent American, then should like to know why the Negroes, Jews and Catholics are

barred.

Answer this, Mr. Simmons and all ye followers of the Klain.

The Negrods are surely one-hundred per cent Americans and we see no reason why the Jews and Catholics are not also.

WASHINGTON PARK A MODERN BURIAL PARK OR GARDEN CEMETERY WITH PERPETUAL CARE

saue, Chapel and Keeper's Lodge Washington Park Cemetery

CONSIDER WELL THE PLACE IN WHICH YOU BURY YOUR DEAR ONES. WHAT IS ITS PRESENT CONDITION—WHAT IS ITS FUTURE—WHERE WILL IT BE AND HOW WILL IT LOOK TWENTY FIVE YEARS HENCE.

You should make this selection yourself, now while in the enjoyment of good health and when you can give it your personal attention. (When death comes you may be forced to leave to others a solemn duty which you should perform.

others a solemn duty which you should perform.

Daily we hear at funerals and from visitors "Oh, I im so sorry that the remains of my people do not rest in this leasuiful place." As time goes on and the natural heauties of Washington Park are developed and become better knows, this regret wh "necrease. Bear in mind, that many of the earlier cemeteries were half out in direct line with the growth of the city and are now suspounded by buildings, factories and railroads, encreachments which not only detract from a cemetery but which will ultimately, force their seatments. In our city, the present generation has witnessed the destruction of several of its earlier generation has witnessed the destruction of several of its earlier generation, and the desum of others in forenthedowed.
